

CanShield Pilot Recency Requirements

STUDENT PILOT PERMIT OR EQUIVALENT*

Training/Flying Activity	Within
Flight on type with a CanShield instructor	14 days

* – This includes any flying requiring instructor supervision due the license privileges not covering the flight (e.g. - night students on solo flights)

PRIVATE PILOT LICENSE

<150 h TT and <100 h PIC

Training/Flying Activity	Within
Flown as a member of flight crew	30 days
Flown the same aircraft type as a member of flight crew	30 days
Flown a CanShield aircraft as a member of flight crew	60 days
Flown with a CanShield instructor	6 months

PRIVATE PILOT LICENSE

>150 h TT or >100 h PIC

Training/Flying Activity	Within
Flown as a member of flight crew	30 days
Flown the same aircraft type as a member of flight crew	60 days
Flown a CanShield aircraft as a member of flight crew	120 days
Flown with a CanShield instructor	1 year

COMMERCIAL PILOT LICENSE

Training/Flying Activity	Within
Flown as a member of flight crew	60 days
Flown the same aircraft type as a member of flight crew	6 months
Flown a CanShield aircraft as a member of flight crew	1 year
Flown with a CanShield instructor	1 year

Pilots / students who do not meet the above requirements must fly with a CanShield instructor prior to flying solo. Exercises to be flown are at the discretion of the instructor, and will tend to be more comprehensive/extensive when further out of recency.
